

SOCIAL STANDARDS

Social Platform is advocating for...

1

QUALITY EMPLOYMENT

Adequate minimum wages, job security, access to social security and the right to work-life balance are all fundamental elements of quality employment.

9.5% of the EU population is at risk of experiencing in-work poverty

2

ADEQUATE INCOME SUPPORT

People should receive adequate income support throughout their whole lives. Just because someone is old, young, disabled, unable to work or seeking work does not mean that they should be left without this most basic of rights.

4 EU Member States offer minimum income support above the poverty threshold

3

UNIVERSAL ACCESS TO SERVICES

We will all depend on services at some point in our lives. Services should be quality, affordable and accessible to all people.

As well as helping mothers and babies, providing undocumented migrants with better access to prenatal care would create savings of up to 48% in Germany and 69% in Sweden over two years
